

EPP eHealth

Welcome to the 7th European Procurers Platform (EPP): eHealth Newsletter!

Welcome to the seventh newsletter from the EPP-eHealth project team. The aim of this newsletter is to highlight progress to date, to encourage participation in the upcoming EPP-eHealth Stakeholder Workshop and the Supplier Survey and to make you aware of the recent dissemination activities the team have been involved in.

EPP-eHealth Progress

The EPP-eHealth team have been working hard and to date the team have:

- Held 4 Consortium Meetings (Madrid, Krakow, Rotterdam and Brussels)
- Prepared a Stakeholder Survey – supply and demand side perspective
- Held three Peer Learning Workshops on Innovation Procurement (Madrid, Rotterdam and Brussels)
- Prepared a report of the second Public Procurement of Innovation Workshop – held in Rotterdam!
- Produced six EPP-eHealth Newsletters
- Completed the review of eHealth demand side and produced a report outlining the findings
- Held two Community of Learning Visits (Krakow and Rotterdam)
- Prepared a Supplier Survey to understand supply side perspectives of innovation procurement

Find out more about these activities: <http://innovationinhospitals.com/KnowledgeArea.html>

Join us - EPP-eHealth Stakeholder Workshop

Stakeholder Workshop at Liverpool City Council, 10th November 2016

The workshop brings together the customers and suppliers of eHealth solutions. It provides a valuable opportunity for suppliers to hear first-hand about the unmet needs of healthcare providers. Customers will hear the perspective of suppliers on how these needs could be met, the barriers to progress regarding the wholesale uptake of eHealth solutions and how customers can support and enable innovation in the eHealth supply chain.

These discussions will inform the development of an Innovation Procurement Strategy for eHealth.

The event is open to both **eHealth Suppliers** and **Healthcare Procurers**.

EPP-eHealth Supplier Survey

The purpose of this survey is to understand ICT suppliers' point of view regarding e-Health development in various European countries, and to assess the potential of ICT solutions for meeting the needs of the health care sector.

We would welcome your opinion:

EAFIP – Second Major event in Innovation Procurement, Athens, October 2016

The second major eafip event took place in the National Centre for Public Administration and Local Government (EKDDA) in Athens, Greece on the 18th and 19th October 2016. This two-day event targeted procurers, policy makers, procurement law firms and businesses, to raise awareness about major PCP/PPI initiatives across Europe, explain the progresses made this last year, present the final version of the eafip Toolkit of assistance, and discuss new ideas, initiatives and funding opportunities for PCP/PPI.

Laura Sanchez of BRAVOSolution presented the EPP-eHealth project in the Parallel Session PM-19 on the second day of the meeting.

VI International Conference in Homel (Gomel), Belarus, October 2016

More than 100 delegates from Belarus, Russia, Estonia, as well as invited speakers from Italy and Poland attended the event which focused on "Modern approaches to health promotion".

The conference outlined results of research in the field of European integration, public health, disease prevention and health promotion with the use of modern information and communication technologies and also considered assessment of quality of life and public health risks.

Marcin Kautsch from Dane-i-analizy presented the preliminary EPP-eHealth project results.

Community of Learning Visit, Alder Hey Children's Hospital, Liverpool

The EPP-eHealth team are also looking forward to their upcoming Community of Learning Visit to Alder Hey Children's Hospital, Liverpool in November 2016.

This is an opportunity to hear from health professionals and suppliers in Liverpool and understand what they are currently doing in the field of eHealth.

A report will be produced following the event which will provide more details on the visit and this will be available on the project website.
